RE: Hoshizaki America, Inc. announces the production of an Energy Star Approved Modular Crescent Cuber Ice Machine, the KMD-850M_H

- The KMD-850M_H is available as both air and water cooled models
- The KMD-850MRH, remote unit is **Energy Star approved**
- The crescent cuber can produce up to 836 lbs. of ice within 24 hours
- KMD-850M_H dimensions are 30" w x 24 5/8" d x 28" h, ideal for ice on beverage application or fits easily on top of an ice storage bin
- To improve sanitation, the KMD-850 Series is protected by **HoshiGuard Antimicrobial Agent** which prohibits bacteria, mold and other microorganisms within the ice making zone
- Hoshizaki's signature stainless steel evaporator produces **individual** crystal clear crescent cubes
- The vertical position of the evaporator allows individual ice cubes to form on both sides, doubling ice production
- The **CycleSaver**® Design allows the KMD series to produce the same quantity of ice in about half as many cycles as competitor units
- Assisting the Service Technician, the **Evercheck Control Board**™ sounds an audible warning when service is needed
- The KMD modular series features a durable, attractive stainless steel finish and features fewer moving parts prolonging the life of the machine and dependability

Hoshizaki America, Inc. is headquartered in Peachtree City, Georgia with manufacturing operations in both Peachtree City, Georgia and Griffin, Georgia. Hoshizaki's automated facilities manufacture complete lines of ice makers, dispensers, refrigerators/freezers and related accessories.
