**DATE:** February 2008

**RE:** Hoshizaki America announces the manufacturing of the **NEW Serenity Series Cuber Ice Machine, KMS-1400MLH**

- Quieter by **75%** over traditional remote units, the noise is so minimal you might not realize it's on
- KMS-1400 utilizes a remote condenser and compressor stationed outside the kitchen and away from customer usage, therefore, producing less noise and heat.
- Serenity's space saving design (30w x 24d x 28h) is ideal installed on top of a beverage dispenser
- Produces up to 1284 lbs. of ice per 24 hours
- Hoshizaki's patented stainless steel evaporator allows for individual crescent cubes to be formed on both sides of the evaporator
- The **EverCheck® Alert System** sounds an audible warning when the machine is in need of service
- The **CycleSaver® Design** allows the cuber to produce the same quantity of ice in about half the cycles of the other ice machines
- The removable water tank allows the technician easy access to the beverage/ ice dispenser and/or storage bin area when cleaning or removing parts
- Protected by **HoshiGuard Antimicrobial Agent** within the ice making zone to inhibit the growth of bacteria, mildew, mold and other microorganisms that can cause odors, discoloration and deterioration of products

Hoshizaki America, Inc. is headquartered in Peachtree City, Georgia with manufacturing operations in both Peachtree City, Georgia and Griffin, Georgia. Hoshizaki's automated facilities manufacture complete lines of ice makers, dispensers, refrigerators/freezers and related accessories.
