RE: Hoshizaki America, Inc. Serenity Cubelet Ice Machine, FS-1500MLH-C

The Serenity Series Cubelet Ice Machine, FS-1500MLH-C, produces up to 1491 lbs. of chewable cubelet ice per 24 hours and exclusively features a space saving design. Additionally, the shallow depth provides easy access to the dispenser bin. The pump down cycle allows for more efficient start up, it is environmentally friendly and is a low cost service. Serviceability is convenient because technicians can access the ice machine from the front or the back and there are no wires between the units. The Serenity Cubelet Ice Machine easily dispenses in an ice on beverage application.

The Serenity Series Cubelet Ice Machine features a condenser and compressor stationed outside the kitchen and away from customer usage, therefore, producing less heat and less noise. Serenity Cubelet Ice Machine, FS-1500MLH-C features attractive stainless steel construction with fewer moving parts which means dependability, longer machine life and energy savings.

Hoshizaki America, Inc. is headquartered in Peachtree City, Georgia with manufacturing operations in both Peachtree City, Georgia and Griffin, Georgia. Hoshizaki's automated facilities manufacture complete lines of ice makers, dispensers, refrigerators/freezers and related accessories.
