RE:

Hoshizaki America, Inc. offers High Capacity Ice Machine, KMH-2000S_H(3)

Perfect for the hospitality and entertainment industry Hoshizaki America offers a high capacity, stackable ice machine that is ENERGY STAR qualified. Compared to competitor units the KMH crescent cube ice machine is the most durable, reliable and sustainable unit of its size. The KMH-2000S hybrid model offers the largest ice production capacity for the smallest footprint. The frame measures 40" in depth and produces up to 1944 lb. of ice in 24 hours. Space saving dimensions, permit the ice machine to be placed side by side or stacked in the same amount of floor space as a single unit. When the unit is stacked the KHM ice machine produces up to 7776 lbs. of clear crescent cube ice within 24 hours. The high capacity unit features a stainless steel evaporator and HoshiGuard Antimicrobial Agent. The KMH-2000S_H is available as air or water cooled and single or three phase unit. Call your local distributor for valuable information about the KMH S Series.

Hoshizaki America, Inc. is headquartered in Peachtree City, Georgia with manufacturing operations in both Peachtree City, Georgia and Griffin, Georgia. Hoshizaki's automated facilities manufacture complete lines of ice makers, dispensers, refrigerators/freezers and related accessories.
