RE: Hoshizaki America, Inc. introduces the Pass Thru Reach-in Refrigerator Series with Full and Half Glass Doors, PTR1SSB-_G_G

- Hoshizaki introduces one section Pass Thru Refrigerator Series featuring multiple door configurations including full and half glass doors, and full and half height solid stainless steel doors.
- The units have over 23 cubic feet of useable storage space
- Ducted air distribution system provides uniform temperatures and eliminates "hot spots" through out the cabinet
- Single section Pass Thru Refrigerator glass door frames are constructed of a high grade durable stainless steel inside and out and insulated with R134-A, CFC free polyurethane. The door glass is triple pane, argon filled with a Low-E non reflective coating.
- Cabinet walls are 2 3/8" thick, insulated with R-134A CFC free foamed in place polyurethane
- Removable refrigeration system is designed with a large capacity condenser and evaporator resulting in a lower overall power consumption
- Evercheck electronic controls monitor high and low temperatures, high pressure, high and low voltage, clean filter and cabinet temperature functions
- Hoshizaki Pass Thru Refrigerators are cUL, UL and NSF

Hoshizaki America, Inc. is headquartered in Peachtree City, Georgia with manufacturing operations in both Peachtree City, Georgia and Griffin, Georgia. Hoshizaki's automated facilities manufacture complete lines of ice makers, dispensers, refrigerators/freezers and related accessories.
