

CPT46-D

Commercial Series Pizza Prep Table with Drawers

CPT46-D
07/18/17
Item # 13347

W x D x H
46" x 32.25" x 43.5" *
*with 6" casters

CPT46-D

Dimensions / Capacity

Interior Storage Capacity (CF) (AHAM)	11ft ³
Overall Width x Depth	46" x 32.25"
Height (including 6" casters)	43.5"
Depth with Cutting Board Installed (including 1" bumper)	36"
Door Opening Width x Height	22.5" x 23"
Depth with Drawer Fully Open (including 1" bumper)	57.5"
Pan Capacity (# of 1/3rd size x 4" deep)	6
Maximum Pan Depth	6"
Crated Weight	337 lbs.
Crated Width x Depth x Height	47.75" x 33.75" x 44.25"

One Section CPT46-D

Electrical / Refrigeration

Voltage	115/60/1
HACR Breaker	15.0 Amps
Electrical Connection (NEMA)	5-15P
Voltage Range	104-126
Ambient Temp. Range	45° to 100°F
Control Setpoint Range	14° to 45°F
Amperage	3.7
Energy Consumption (kWh/day) @NSF	4.3
Heat Rejection (BTU/Hr.) @NSF	605
Approx. Nominal Compres. BTU/HR (HP)	1386(1/5HP)
Refrigerant / Charge Amount (oz)	R-134a (6.5 oz)

One Section CPT46-D

Options

- ☐ Rail adapter bars
- ☐ Divider bars

Warranty

- * 3 Year - parts and Labor on entire machine.
- 5 Year - Parts on Compressor
- Valid in United States, Canada, Puerto Rico and U.S. Territories. Contact factory for warranty in other countries.

Item #: _____

Project: _____

Qty: _____

AIA#: _____

Features

- ▶ Engineered to maintain NSF-7 temperatures in 100°F ambient. (Certified to NSF-7 temperatures in 86°F ambient.)
- ▶ Rail utilizes an adjustable ducted air distribution system to distribute air evenly and maintain product temperature
- ▶ Stainless steel interior
- Stainless steel exterior front, sides and top
- Solid state digital controller with temperature alarms and LED display (Fahrenheit or Celsius)
- Cabinet and drawers are insulated with 2" of CFC free, foamed in place polyurethane
- Drawer slides are constructed of 14 gauge stainless steel with acetal rollers
- Drawer frames are constructed of 14 gauge stainless steel and securely fastened to cabinet
- Drawers have a 250 lb. dynamic load rating
- Drawers will accommodate (2) 12" x 20" x 6" deep pans (pans by others)
- Provided with a full complement of polycarbonate plastic 1/3rd size pans, 4" deep and adapter bars
- Front breating air flow design
- Extruded aluminum flush mount drawer handle
- Magnetic drawer gasket is easily removable for cleaning
- 46" x 19" x 1/2" thick white polyethylene cutting board is standard
- Evaporator coils are epoxy electrocoated (E-Coat) to help fight corrosion
- Standard with 6" casters (two with brakes)
- Three year parts and labor warranty
- Five year compressor warranty
- 8 ft. cord and plug

Cabinet Construction

The exterior cabinet top, front, and sides, are constructed of high quality stainless steel. The exterior back and bottom are constructed of coated steel. The cabinet interior back and sides are stainless steel with an ABS ceiling and stainless steel floor. Cabinet walls and drawers are insulated with 2" of foamed in place polyurethane. 6" polyolefin, stem casters (two with brakes) are standard. The raised refrigerated rail is constructed of stainless steel interior and exterior (except back is galvanized steel). The rail is air cooled and utilizes a unique patent pending ducted air distribution system to distribute air evenly and maintain product temperature at safe levels. The rail will accommodate 1/6th, 1/3rd, 1/2 and full size pans 6" deep. Pans are located 1.5" below the front of the rail to assist in access to food product. An insulated, stainless steel one piece hinged lid is standard. Pizza preparation table is supplied with a 46" x 19" x 1/2" thick N.S.F. approved white polyethylene cutting board.

Drawer Construction

Drawer fronts are constructed of high grade stainless steel with stainless steel interior and are insulated with R-134a CFC free foamed in place polyurethane. Each drawer accommodates (2) 12" X 20" X 6" deep pans (pans by others). Drawer frames are formed of 14 gauge stainless steel all welded construction and securely fastened in the cabinet. The drawer slides are constructed of 14 gauge stainless steel and durable acetal rollers with stainless steel ball bearings to prevent metal to metal contact. The drawer slides have a dynamic load capacity of 250 pounds and have been life-tested (fully-loaded) three hundred thousand cycles without showing significant wear. Drawers are provided with a one-piece extruded aluminum flush mount handle. Snap-in magnetic drawer gaskets are durable and easily removed for cleaning.

Refrigeration System

Front breathing refrigeration system allows unit to be built into any enclosure with zero clearance at the side or rear. The high efficiency refrigeration system is self-contained with an epoxy electrocoated (E-Coat) evaporator coil for extended life. Condensate removal is accomplished with an energy efficient non-electric evaporation system. A capillary tube controls the flow of environmentally friendly R-134a refrigerant through the evaporator. Refrigeration system utilizes a heated defrost element to eliminate any ice on the evaporator coil. An innovative, patent pending, ducted air distribution system distributes air evenly around food product in the rail. Engineered to maintain NSF-7 temperatures in 100°F ambient. (Certified to NSF-7 temperatures in 86°F ambient.) Pizza preparation tables are supplied with a full complement of N.S.F. approved plastic, 1/3rd size pans, 4" deep and stainless steel adapter bars. 115 volt units are equipped with an eight foot cord and plug (20.0 amps or less).

Printed in the U.S.A.
